

NEW RELEASE IN 2027

IMPULS
KÜCHEN

HIGHline

MORE storage.

MORE impact.

MORE options.

More storage.

Far more kitchen on the same footprint – what may sound like a dream come true in sales pitch is now reality. Coming with 7.2 cm more carcass height than usual (**BASE**line), our new **HIGH**line gives you planning options that will simply make your jaw drop. And your customers' even more.

- **More** kitchen on the same footprint
- **More** room for provisions, tableware and kitchen utensils
- **More** storage space that counts so much every day

More storage.
More items in their own place.
Less compromise!

More height. More convenience.
HIGHline's new carcass height makes all the difference: it provides ergonomic working height, reduces unnecessary bending and provides noticeably more convenience in everyday kitchen routine.

For kitchens that not only look good but also feel good every day.

- Optimised working height appeals to a new audience
- Less physical strain cutting, chopping and working
- Combination of plinth height and worktop thickness permits customisable solutions

"This height is perfectly suited to today's lifestyles – and it is something your customers will instantly notice."

79.5 cm – the new intelligent carcass height.

HIGHline opens up new ways of planning kitchens: high ceilings, large window fronts and contemporary floor plans. In situations where conventional standards reach their limits, **HIGH**line doesn't.

Significantly more useable storage space may sound abstract, yet means more room for pots, pans and tableware. And a difference your customers will notice the moment they open a drawer or door. Guaranteed.

Plinth height	10.5 cm
Carcass height	79.5 cm
Worktop thickness*	2.5 - 4.0 cm
Total height (IMPULS 5½)	92.5 - 94.0 cm
Standard height BASE line	72.3 cm
(comparison)	7.2 cm
Extra height over standard	

* 2.5 cm and 4.0 cm worktops come at the same price. Same decors in both thicknesses.

79.5 CM

Three lines. One clear concept.

HIGHline is the new premium range in the Impuls 2027 collection. More storage space, enhanced ergonomics and modern design – all based on the same planning logic as **BASE**line and **PURE**line (handleless).

	BASE line	HIGH line	PURE line
Design	Classic, practical	Modern, reduced	Handleless, purist
Carcass height	72.3 cm	79.5 cm	78.7 cm
Positioning	Tried and proven standard	Premium and comfort	Purist aesthetic appeal
Audience	Broad audience	Discerning, new build	Superior design
Thickness	Cost-efficient, versatile	Ergonomics and storage space	Clean lines

"The same decor finishes across all price segments – that's up and downselling without compromising on style."

More impact.

HIGHline not only impresses with functionality, it's modern reduced aesthetic is breathtaking too. The taller carcass height permits uninterrupted fronts that follow consistent lines. Less visible plinth, more frontage, more appeal.

- **Large-surface fronts** for a modern, calm look
 - **Clean lines** for a balanced overall impression
 - **Versatile combinations** with IMPULS front colours and decors
 - **Design-focused base** for bespoke kitchen concepts
- More impact. Modern thinking. Powerful presentation.**

New design options – offering the same planning flexibility as ever.

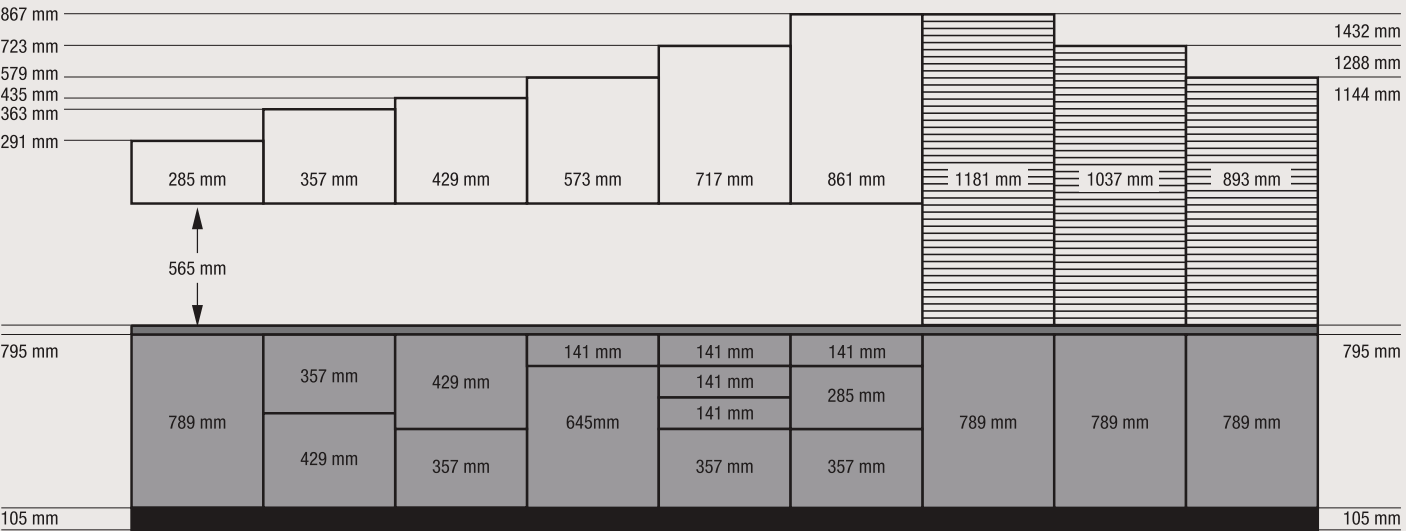

CLEAN
LINES.
HUGE IMPACT.

More options.

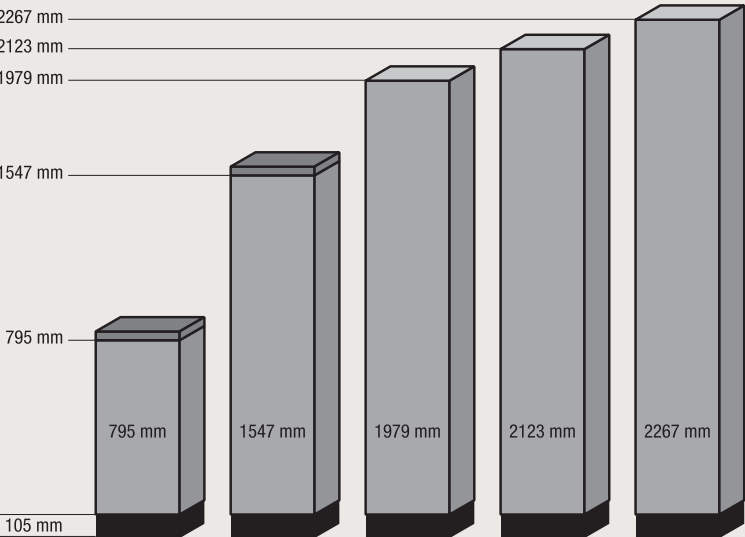

More height means more selling points. **HIGH**line opens up new possibilities in kitchen planning. Easy to communicate and compelling at the point of sale.

Carcass height 79.5 cm

More planning flexibility. **HIGH**line opens new avenues in planning kitchens. The additional carcass height creates more storage and versatile solutions for different spatial situations – while retaining the same straightforward IMPULS planning logic as **BASE**line and **PURE**line.

More options. More planning flexibility. More solutions.

- Your benefits at a glance**
- **Clear selling points:** more storage, ergonomic convenience and modern lines
 - **Easy to explain:** no need to describe complex grid systems
 - **Versatile planning:** suitable for different spatial situations and personal customer preferences
 - **Familiar planning logic:** works alongside **BASE**line and **PURE**line – without any additional planning input
 - **IMPULS at your side:** planning service, contract project support, training courses

HIGHline

Simply **MORE.**
